## Mormugao Port Trust

Notification No. 5-GA/(14)/84

In exercise of the powers conferred under Section 124(2) of the Major Port Trusts Act, 1963 (38 of 1963), the Board of Trustees of the Port of Mormugao hereby makes the following rules for registration of contractors:—

i) These rules may be called the Mormugao Port Trust Rules for registration of contractors.

ii) They shall come into force on the date on which the Central Government's approval to these rules has been published in the Official Gazette.

## Scope of the rules:

(a) The appended rules for registration of contractors will be applicable to all contracts for works executed by the Chief Engineer's/Chief Mechanical Engineer's deptt.

(b) The Chief Engineer/Chief Mechanical Engineer will issue a public notification in Scheduled newspapers notifying the Trustee's intention to the revised procedure and also invite applications for such registration simultaneously giving about two months for the contractors to apply. The Chief Engineer/Chief Mechanical Engineer will scrutinise the applications and obtain sanction of the competent authority to registration. The scheme will be brought into effect thereafter. Such notification shall be repeated after every three years even though the process of registration will be continuous.

(c) Even after the registration system as per these rules comes into force the usual publication of tender notices shall be continued. Tender copies will however, be issued only to the contractors registered in the categories eligible to quote for such works as per notification and those in higher class. If any unregistered contractor wishes to purchase the tender copy he will have to apply for registration and pay 100% of the registration fees. If after the scrutiny of his application he is found suitable

for the class for which tenders are invited, his tender will be considered alongwith other tenders, otherwise his tender will be ignored.

(d) No tender form shall be issued or contract given to any person, syndicate or firm whose name is not borne on the Register of Approved Contractors referred to in 'Rules for Registration of Contractors' without the orders of the CE/CME.

Provided that if on invitation of tenders, no registered contractor tenders and the work cannot conveniently be undertaken departmentally it could be permissible for the CE/CME to give it to an unregistered contractor or a contractor registered in the lower class of that category after re-inviting tender openly and without restrictions.

*Note 1:* When re-invitation of tenders is necessitated due to the receipt of high tenders, it is open to the CE/CME to re-invite tenders openly from registered as well as unregistered contractors, provided that the high tenders received at the first call are rejected first by the CE/CME.

*Note 2:* If re-invitation of tenders is not found to be feasible due to the extreme urgency of the works, the contract should be negotiated but such negotiations should be carried out only with the registered contractors in the appropriate class and category.

## Rule No. 1: Classification of Contractors:

The contractors are classed according to their financial status and technical capacity. The classification, solvency required, registration fees, officer competent to sanction registration etc. are shown in the following table:

*Note 1:* A solvency certificate shall not be accepted for the purpose of registration more than twelve months after the date on which it was granted.

*Note 2:* A banker's certificate which brings out the financial soundness of the contractor (to the extent required for the relevant category) shall be accepted. No distinction like scheduled or non-scheduled shall be made for this purpose.

*Note 3:* Solvency certificate in the name of a firm need not be insisted upon if such a certificate for the required amount in the name of one or more partners is forthcoming and it is made clear in the partnership deed that all the partners are jointly and severally responsible to meet all liabilities over and above the business of the firm.

(b) Professional capacity and reliability supported by certificates or recommendations of officers of Govt. or Public Bodies, who have had personal knowledge of the applicant and his work.

*Note 1:* The experience gained by an individual partner in the execution of works in the past may be taken into consideration while deciding the category of the contractors

if the partner concerned has to his credit execution of such works by virtue of monetary share and other interests. Experience gained merely as a servant may not count as proof of the capability of the firm as a whole.

*Note 2:* The Officer concerned recommending sanction shall ensure that the contractors have the required experience and that have undertaken works of sufficient magnitude justifying their competency to take up the works in the class in which they seek enrolment. If the criteria given in rule 3 below is not fulfilled there would be no necessity for forwarding the application to the registered authority.

## Rule No. 3: Procedure for Registration:

(iii) If as a result of the scrutiny of the application a particular contractor is not found suitable for the class for which he has applied for registration, the concerned authority may consider his application for registration for a lower class in which case a separate application, for registration will not be required.

**Note 1:** The CE/CME shall fix a day on which he will personally examine the application and if the application do not contain complete information, call the applicants and explain to them what is required and return the applications for resubmission.

**Note 2:** Every change in partners and leading technical employees will be intimated by the contractor to the registering authority forthwith.

#### **Rule No. 4: Additional qualification for registration:**
